Dear Friends,

It is my honor to personally invite you, your team and your family to the 2018 Oklahoma Dental Association Annual Meeting in Oklahoma City on April 20 and 21. The Annual Meeting Planning Committee Chair, Dr. Dan McNair, his committee, and the ODA staff have worked diligently throughout the year to provide a wonderful meeting guaranteed to provide you high-quality continuing education, fun and camaraderie for the entire team.

This year’s meeting theme is The Future Is Now. There is no better time than today to create a better future for those who follow. We’ve had a very busy year working together with the ODA Councils and the Board of Trustees on a variety of issues ranging from legislative, Oklahoma Mission of Mercy, The University of Oklahoma College of Dentistry, Oklahoma Dental Foundation and other agendas. It is now time to come together as a dental family to celebrate our accomplishments and have FUN!

Opening the Annual Meeting will be our own Dr. Cathy Jameson. She will motivate you to build and create a healthy work environment using her unique skills and knowledge of team building. Dr. Jameson is an inspiring dental professional known worldwide who will encourage you and your team to develop a workplace where everyone feels supported, trusted and respected. Don’t miss this rare opportunity to hear Dr. Cathy Jameson’s tips on how to create a more fulfilling, fun and productive work environment during the Opening Session!

Our two-day schedule of continuing education offers excellent courses for all dental professionals. Speakers such as Dr. Howard Farran, Dr. Michael DiTolla and Rachel Wall, RDH, will present practice management, clinical skills and the latest dental material currently available.

In addition, Dr. Perry Brooks will bring the latest information on CBCT scan technology and its practical uses for the dental office.

Dr. Uche Odiatu is an internationally recognized health and wellness expert. Come and learn from him how to maintain a vibrant lifestyle full of energy and wellness. The ODA Breakfast and Learn, as well as our Lunch and Learn, will provide additional courses in clinical, practice management and ethics. The ODA Annual Meeting has a full spectrum of top notch education that is fun, convenient and affordable.

The Exhibit Hall will be full of vendors displaying the latest equipment and dental materials. We greatly appreciate our exhibitors and sponsors for their commitment and support. Their participation is crucial. Let’s show them our gratitude by visiting the Exhibit Hall, located in the Cox Convention Center, on Friday from 7:30 a.m. to 5:00 p.m. Make sure you look for the meeting “specials” that will be available on the exhibit floor. After you shop, stop by the Exhibit Hall Reception on Friday from 3:30-5:00 p.m. Relax, have fun and enjoy light hors d’oeuvres and drinks while mingling with exhibitors and colleagues.

Wrap up your weekend Vegas-style at the annual President’s Dinner, Casino Night in the City. There will be gaming tables with blackjack, poker and craps, entertaining music, great prizes and fun. We will also honor and present this year’s ODA Awards to our worthy recipients. Join us to celebrate and congratulate those deserving colleagues.

I look forward to seeing you and your team at the 2018 ODA Annual Meeting in OKC!

INCENTIVE BUYING PROGRAM IS BACK!

Oklahoma Dental Association member dentists who spend $5,000 or more with exhibitors during the meeting and submit their receipts for verification while on-site, will receive FREE registration to the 2019 Annual Meeting in Tulsa.

RULES:

To participate, ODA members must turn in receipts totaling $5,000 or more to the ODA Registration Booth. Only purchases that take place during Exhibit Hall hours, 7:30 a.m. - 5:00 p.m. on April 20, will be accepted for participation in the Exhibit Hall Incentive Buying Program. Redemption must take place on-site; no receipts will be accepted after the final closing of the 2018 Exhibit Hall on Friday, April 20 at 5:00 p.m.

Purchases MUST be made during the 2018 Annual Meeting Exhibit Hall hours. No exceptions will be made.

Exhibit Hall hours: Friday April 20 (ONLY), 7:30 a.m. - 5:00 p.m.
The Exhibit Hall is an integral part of the ODA Annual Meeting, offering attendees a FREE opportunity to browse and discuss the latest advancements in products and technologies in dentistry. With approximately 100 booths of various exhibitors, the ODA Annual Meeting Exhibit Hall is a one-stop shop for networking, purchasing, learning and exploring.

**HALL HOURS**
Friday, April 20 ONLY
7:30 a.m. - 5:00 p.m.

*ODA Annual Meeting registration is not required for Exhibit Hall entrance.*

**CONCESSIONS**
Snacks and beverage options will be available for purchase from the Cox Convention Center concessions inside the Exhibit Hall.

**ODA BINGO**
Grab your game card and take part in ODA Bingo! Explore the Exhibit Hall on Friday and obtain stickers from participating exhibitors to complete your ODA Bingo game card. Take this opportunity to visit industry vendors and acquaint yourself with their products and services while earning a chance to win fabulous prizes. Turn in your completed card to the registration booth to be entered in the drawing, which will take place during the Exhibit Hall Reception on Friday, 3:30 p.m. - 5:00 p.m. *Must be present to win.*

**EXHIBIT HALL RECEPTION**
Join friends and colleagues for cocktails and networking at the Exhibit Hall Reception held Friday, April 20, 3:30 p.m. - 5:00 p.m. All registered meeting attendees will receive one drink ticket in your registration packet to redeem during this reception.

---

**You're Invited**
Friday, April 20, 2018
3:30 PM - 5:00 PM

Stay for a drink and take advantage of this time to network and mingle with colleagues and exhibitors.

OPENING SESSION
CREATING A HEALTHY WORK ENVIRONMENT
CATHY JAMESON, PHD

FRIDAY, APRIL 20
8:00 A.M. - 9:00 A.M.
EXHIBIT HALL
LECTURE FORMAT
ONE (1) CE HOUR
CATEGORY D

COURSE DESCRIPTION

Your practice cannot operate or reach its full potential without a dynamic, productive team. This engaging and informative presentation allows each participant to take a deep look at his/her role in the practice as well as examining the business and where it is going. Learn the skills you will need to take your practice from where it is now to that next level and how to develop a culture of superstars along the way. Enjoy this powerful session as you determine the key components to creating your own healthy work environment.

ADVISORS FOR YOUR DENTAL CAREER
HOWARD FARRAN, DDS, MBA
DR. FARRAN’S ONE-DAY DENTAL MBA

FRIDAY, APRIL 20
9:30 A.M. – 12:30 P.M.
THREE (3) CE HOURS
LECTURE FORMAT
CATEGORY D

Recommended for dentists and staff!

COURSE DESCRIPTION

In this seminar, Dr. Farran shares his proven techniques to increase your productivity and build your business. You will enjoy his fast-paced, straight-from-the-hip, politically incorrect, exhilarating style while you learn more in one lecture than you ever thought possible. Dr. Farran’s seminar focuses on the business of running a dental office – things that every business needs to do in this economic environment, what every business needs to make its products and services more efficient, and things that can realistically be managed and what functions your business should have.

COURSE OBJECTIVES

1. Learn how to apply time-tested MBA-level management to your office.
2. Learn about the only three things you manage – people, time, and money.
3. Learn about the three functions of business – to make something, sell something, and watch the numbers.
4. Learn how to build a winning team without any hype, fluff, or wishful thinking.
5. Learn how to get twice as much done in half the time while reducing your stress.
6. Learn which sectors in dentistry are growing faster with higher net income so you can focus your practice for profitability.

ADA CERP® | Continuing Education Recognition Program

The Oklahoma Dental Association is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The Oklahoma Dental Association designates each of the sessions offered as specific number of continuing education credits as listed in the speaker information.

Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp
COM LANET. ANATOMY, DIAGNOSIS AND DENTAL IMPLANT PLANNING

FRIDAY, APRIL 20
10:00 A.M. – 1:00 P.M.
THREE (3) CE HOURS
LECTURE FORMAT
CATEGORY B

RECOMMENDED FOR DENTISTS!

COURSE DESCRIPTION

The purpose of this course is to gain valuable exposure, experience, and understanding of the role of a dental implant surgeon and dental clinician. Plus, learn how to interpret a three-dimensional CBCT scan using axial, coronal, and sagittal views. Starting with learning basic anatomy of CBCT scan, the lecture will go into detail of fundamental radiographic anatomy and the different planes of anatomy. Radiographic maxillofacial pathology will be reviewed. Instructions on how to write the interpretation of a CBCT scan will be given along with examples/handouts of the necessary information. Also included will be a brief discussion of the medical legal aspects of radiographic interpretation. The remainder of the course will be an introduction of how to diagnose and treatment plan dental implants using multiple different software venues, followed by designing and fabricating surgical guides and templates.

COURSE OBJECTIVES

1. Review and understand maxillofacial anatomy.
2. Interpret CBCT scan using axial, sagittal, and coronal views.
3. Increase knowledge of radiographic maxillofacial pathology.
4. Learn how to use dental implant software for treatment planning.
5. Understand the medical legal aspects of radiographic interpretation.
6. Learn how to write a formal note for interpretation of CBCT scan.
THE MOTIVATED MINDSET
FRIDAY, APRIL 20
9:30 A.M. - 12:30 P.M.
THREE (3) CE HOURS
LECTURE FORMAT
CATEGORY B

COURSE DESCRIPTION
Uncover the most common mistakes that, when corrected, can easily triple the amount of perio therapy you’re performing, increase production, reduce stress and set you apart as a true health care professional.

COURSE OBJECTIVES
1. Receive resources to get the entire team on the same page with a common Perio Standard of Care.
2. Learn science-based rationale to overcome mental barriers that hold hygienists and dentists back from recommending ideal perio treatment.
3. Develop critical-thinking skills to create customized treatment plans and increase case acceptance.
4. Learn how to utilize specific language for presenting perio treatment to existing patients—and for getting a surprisingly high acceptance rate.

Both courses recommended for all dental staff!

KNOW YOUR R.O.H. (RETURN ON HYGIENE)
FRIDAY, APRIL 20
1:30 P.M. - 3:30 P.M.
TWO (2) CE HOURS
LECTURE FORMAT
CATEGORY B

COURSE DESCRIPTION
Is your hygiene team the backbone of your practice or the weakest link? No matter your answer, every hygiene team has the potential to grow to the next level. This course is designed to reveal areas in your hygiene department that can be enhanced, refined and further developed to help you realize a strong return on hygiene for your patients, providers and your practice.

COURSE OBJECTIVES
1. Discover where there’s room for growth and improvement in the following areas of your hygiene team:
   • Profitability – learn hygiene compensation principles that create healthy, long-term hygiene profitability
   • Perio Awareness – a specific formula for determining your practice's perio potential
   • Restorative Co-Diagnosis – three easy, actionable leadership principles you MUST implement to dramatically increase treatment enrolled in hygiene
   • Hygiene Open Time – why your digital reminders may not be working
2. Develop a personalized plan with actionable steps to implement right away to empower your hygiene team to grow to the next level.
COURSE DESCRIPTION

Advances in several new all-ceramic restorations has resulted in significant and consistent reductions in the number of PFM (porcelain-fused-to-metal) restorations being fabricated annually. CAD/CAM technology in the dental laboratory has helped make these newer restorations more consistent in terms of fit, contact and occlusion. Full-contour zirconia restorations are becoming more popular in the industry; proper cementation/bonding protocols for these restorations will be discussed in this course. Digital shading has improved to the point where not only dentists but also many labs quality-control their restorations with it. A prep technique will also be demonstrated that ensures adequate reduction and nearly perfect margins with relatively little effort.

COURSE OBJECTIVES

1. Recognize the shift from PFMs to monolithic (single-material) restorations that allow the clinician to use high-strength materials while satisfying patients' esthetic desires.
2. Understand the use of a prep technique that will impress your lab by improving the quality of your preps and impressions.
3. Be familiar with full-contour zirconia and the pros and cons of using this structural ceramic material as a crown and bridge material, and be familiar with the cementation/bonding protocol.
4. Be familiar with the new class of cementable all-ceramic restorations such as lithium disilicate, and understand how the CAD/CAM milling process can improve consistency and quality.
5. Understand why the shade guides many dentists use today are inadequate, and what shade guide can cut your shade remakes in half.
THE NAKED TRUTH: THE BARE ESSENTIALS TO HEALTHY LIVING

COURSE DESCRIPTION
This inspirational lively session will reveal the importance of incorporating lifestyle management into our conversations, treatment plans and patient care. Sedentary living, stress overload, excess weight – a major percentage of patients are suffering before they even sit in the chair. Patients (us too) are overworked, tired and tapped out, and they fill our schedules! As confident health care providers, with updated knowledge and strong insights, we can connect the dots, lead by example and provide SOLUTIONS.

This course will also provide references to the American College of Sports Medicine (ACSM) journal, Medicine & Science in Sport & Exercise, for the newest developments in healthy living, and share transformational stories from real life people who added active living habits and stress-busting strategies to their daily routine and increased their overall vitality and well-being.

COURSE OBJECTIVES
1. Gain insights into 10 lifestyle habits contributing to weight gain, inflammation, accelerated aging and disease.
2. Learn how BOTH excess visceral and subcutaneous fat act like active organs & wreck havoc in the mouth/body.
3. End sedentary living and learn specific ergonomic solutions to support growth, boost vitality and promote healthy aging.
4. Identify how modern living, tight schedules, and poor stress management practices show up in your patient’s health history.

Recommended for all dental professionals!

NUTRITION LOLLA PALOOZA: FRENCH FRIES, FLOSSING & FITNESS

SATURDAY, APRIL 21
2:00 P.M. - 5:00 P.M.
THREE (3) CE HOURS
LECTURE FORMAT
CATEGORY B

COURSE DESCRIPTION

Don't miss this food festival. After this party is over you'll no longer look at food as simply "fuel for your body." Our diets are the linchpin of the repair/regeneration cycle. Eating is the most intimate thing we do with our environment. Consuming a variety of healthy food helps slow aging, maintains body weight and supports oral health. Green tea, dark chocolate, filtered H2O, conventional vs. organic food, and much more. This inspiring session will support you and your patients' health journey.

There's much more to it than calories in/calories out and time management. This course will review the current literature on how cooking methods, speed of eating, timing of meals, and emotional state all influence the way food is absorbed. We will also review the current literature on the different methods successful health coaches use to create change in their clients, on how destructive lifestyle habits (binging/purging; bruxism; sedentary living) adversely influence the oral cavity and provide solutions.

COURSE OBJECTIVES

1. Learn 15 NEW healthy eating strategies to fight the roller-coaster of high/low blood sugar boosting inflammation.

2. Learn motivational interview techniques so you can educate and inspire positive change in yourself and your patients.

3. Gain insight into the new science of the 100 trillion cell human microbiome and how it impacts digestion, emotions and behavior.

4. Understand which foods to eat more of and which foods to stay away from for optimal overall gut flora health, diversity and balance.

Recommended for all dental professionals!

OKLAHOMA DENTAL ASSISTANTS ASSOCIATION SPONSORED COURSES

FRIDAY, APRIL 20

THE LAB ASSISTANT: HOW TO MAXIMIZE YOUR DENTAL LABORATORY RELATIONSHIPS

Casey Murchison

9:30 A.M. – 11:30 P.M.
TWO (2) CE HOURS
CATEGORY B

This presentation covers the role of the dental assistant assigned to handle all interactions with dental laboratories. The course will cover how to maximize, strengthen and leverage the relationship so that all parties are respected, have value and can provide insight.

**COURSE OBJECTIVES**

1. Learn effective in-office systems for managing cases and avoiding the PITC.
2. Learn effective communication with the lab.
3. Learn accountability and expectations.
4. Learn how to maximize your laboratory relationships.
5. Learn how to make sure you give the lab all the information they need – removable, fixed, implants, etc.
6. Learn how to take accurate, consistent shades.
7. Let the lab teach you – in office Lunch ‘n Learn topics.
8. Learn how to use remakes as teaching tools.

DON’T BE A HEADLINE: INFECTION CONTROL TRAINING TO PROTECT YOUR PATIENTS AND YOUR PRACTICE

Julie Nabors, RDH, MEd

1:30 P.M. – 3:30 P.M.
TWO (2) CE HOURS
CATEGORY B

Recent headlines bring attention to the fact that breaches in infection control continue to occur in dentistry. This course will shine a light on a few of the current hot topics in infection control in dentistry as well discuss some of the options available to help dental professionals feel confident they are in compliance with the CDC Guidelines.

**COURSE OBJECTIVES**

1. Become familiar with current infection control resources such as the CDC Summary of Infection Prevention Practices in Dental Settings.
2. Become familiar with current information on maintaining and monitoring dental unit waterlines.
3. Understand how to perform, monitor, and document sterilization cycles.
4. Understand the role of the Infection Prevention Coordinator.
5. Learn the CDC recommendations for infection control training of dental staff.
6. Understand the benefit of training is to not only protect the patient but to also protect the dental professional and the practice itself.
We are bombarded by advertisements telling us what is healthy and an excess of research telling us what is not. The average Western diet is full of saturated fat, salt, sugar and calories, yet lacking in nutrition and fiber. The oral cavity is a window to the rest of the body; many systemic diseases and nutritional deficiencies show up here. As dental professionals, we are in a unique position to educate our patients on oral and overall health. This course is designed to encourage adoption of new habits, not dwell on old ones. When you add healthy foods to your diet they will naturally push out unhealthy choices. We will discuss specific vitamins and minerals that fight inflammation, bone loss, gingival bleeding and other oral symptoms. You will be introduced to numerous common foods to add to your daily routine to boost oral and overall health.

**COURSE OBJECTIVES**

1. Explore the oral benefits of consuming whole foods.
2. Integrate basic nutritional counseling skills into patient treatment.
3. Guide patients in selecting foods that will promote oral health.
4. Discuss common herbal supplements and their relation to oral health.
The ODA Breakfast and Learn will include three different topics with a buffet breakfast designed for casual learning. This year’s ODA Breakfast and Learn will feature the following presenters:

**Dr. Rob Bryan:**
3D Treatment Planning for Implants

**John P. Bean, MSN, CRNA:**
Mobile IV Sedation and Anesthesia for the Dental Client

**Dr. Amanda Ward:**
New Thoughts in Pediatric Dentistry

**ODA ETHICS LUNCH AND LEARN**

**ETHICS AND DENTISTRY**

James Farley, DDS

**COURSE DESCRIPTION**
A review of the ADA Principles of Ethics and Code of Professional Conduct followed by a group discussion of various case presentations which pose ethical dilemmas.

**COURSE OBJECTIVES**
To refresh awareness among participants of the importance of maintaining high ethical standards.
